

THURSDAY, FEB. 10, 1887.

Mexico expects a good deal of her Board of Trade.

Mexico's future depends on the kind of city officers elected this spring.

If Mexico gives anyone a gas franchise the Mining & Manufacturing Co. should have it.

Gen. John McNeil has been removed from the adjutant-generalcy of the G. A. R. of this state. A good ride.

There should be a station show in Mexico this spring. Audrain can boast of some of the best horses in the world.

It is not true that a Washington pension agent is trying to get a pension allowed for the offspring of an army mule.

Boodle may indeed be derived from the Dutch, but the general impression is that it is taken from the pockets of the people.

It is rumored that Brigham Young is still alive. If this is true, Brigham has discovered a very ingenious plan for keeping out of the penitentiary.

Every county in the state had elected as pure a representative as Audrain did, the lobby at Jefferson City would get lonesome and go home.

The Falls County Guide is now edited by the Young Bros. We trust they will keep it up to the standard attained under the management of Everett Bean.

B. R. CATHORN who is a member of the Board of Trade, is very anxious for the Board to accomplish something and never fails to come in to the meetings.

A man in this city recently caught a severe cold while standing at a corner talking about the late war and especially about the battle of Gettysburg. Thus do patriots kindly attempt to reduce the misit surplus.

The Chicago Socialists have taken to very small business. They want the United States army abolished. Next they will insist on the abolition of the Marine Band, which is about all there is left of our gigantic Navy.

European Statesmanship is vainly striving to devise some way of creating a surplus, while Americans are trying to find some way to get rid of theirs. The American job ought to be the easier of the two, but it appears to be very difficult indeed.

That Chicago girl is in about the worst dilemma on record. She doesn't know whether she is legally Miss Van Zandt, Mrs. Henry Spies or Mrs. August Spies. But she may rest assured that the country regards her as little better than a lunatic.

Nine Indians from the Sac and Fox Agency, Indian Territory, are on their way to Washington to see the President. If any member of the squad is after the position of Recorder of Deeds for the District of Columbia the fact has so far been kept secret.

In Illinois an earnest effort, supported by a number of prominent clergymen, is being made to secure the passage of law making it only a misdemeanor to kill the betrayer of a woman. Down in this part of the country we have an unwritten law which makes it only emotional insanity.

A horrible railroad accident, caused by a broken rail, occurred near White River Junction Saturday morning, which resulted in nearly one hundred persons losing their lives. Four cars were plunged over an embankment into a river, and took fire, consuming the imprisoned passengers. About fifty bodies have been recovered up to date.

Mr. Lewis Burdard, son of Dr. Burdard of iterative notoriety, has written a letter containing this statement:

"The only rewards Dr. Burdard ever received for the unfortunately famous speech were the profuse thanks of Mr. Blaine immediately afterwards, and his cordial invitation to dine with Mrs. Blaine and himself the same evening."

The journals which have been so active in abusing Dr. Burdard for his famous little speech should now give Mr. Blaine a scoring for the profuse thanks and the invitation to dine. This revelation presents the man from Maine in the attitude of an accomplice.

There are 9,000 licensed and one thousand unlicensed drinking places in New York City, with its population of about 1,500,000—or one saloon for every 150 inhabitants—men, women and children. There are fewer than one-third as many—3,100, in the state of Missouri with its population of 2,500,000. Philadelphia is not far behind New York. It has 6,000 drinking places—or one to every twenty-nine voters—the New York ratio being one to every twenty-four voters. The New York Evening Post, in commenting on these facts, says:

"The Bowery is not the only portion of the city which is thus infested. Third avenue is for miles so thickly studded with saloons that you can hardly find a block which has less than four, and you can find hundreds of blocks in which there are anywhere from six to a dozen. High license is the kind of legislation which the liquor interests most dread. Prohibition has no terrors for them. Especially in a city like New York. They know perfectly well that prohibition here would simply mean a new form. But high license is quite another matter."

L. M. PEASE,

IS TO THE FRONT

With a Much Larger Stock!

—OF—

DRY GOODS

Than Ever Before.

He Buys and Sells for Cash!

And saves his Discounts and Makes

no Bad Debts.

No Man on Earth!

Can Undersell Him.

He also has anything you want in

GROCERIES.

Opposite the Post Office.

MEXICO.

MISSOURI.

From an Unpublished Paper.

From the Missouri State Journal. Audrain county grand jury have a curious idea of their duties and a rather exalted of their importance and responsibility. On Tuesday last, the grand jury made a report in which they severely criticized and censured the late judge, E. Robinson, and the late prosecuting attorney, Geo. Robertson, for the manner in which certain criminal cases were disposed of recently, before these gentlemen went out of office. If the officers were guilty of malfeasance, it was undoubtedly the duty of the grand jury to indict them, but for that body to try, condemn and punish them in a star chamber court, is a little more than American love of fairness and justice would warrant.

We also clip the following from the same paper:

There seems to be nothing whatever in the charges made by the Audrain grand jury against Judge Robinson and prosecuting attorney Robertson. The grand jury was simply using around in quarters it had no right to invade and was probably incited to the work by an ex-officio whose reputation has been somewhat smirched by equivocal practices. Those who know both gentlemen best are least inclined to accept the theory of collusion with criminals and compromise with crime.

The County Court is in session and has business enough to keep it busy for a week. The personnel of the court is, perhaps, the best of any county in the state. They are representative men of the county and indefatigable in the work for the best interest of the county.

There is no trouble to start a new party if money is subscribed by the members to pay delegate expenses, as was the case in this city last Thursday. "Walking delegates" can be secured any time, at any place, for any cause, if they are paid.

The Navy Department's inspectors are busy inspecting the steel for the new war vessels. Under the old administration of the navy it used to be written "steel."

B. C. JOHNSON, Circuit Clerk, paid into the school fund of \$726 as fines, instead of \$227, as stated erroneously heretofore.

Probably Brigham Young has come back because there is no marriage in heaven.

Ex-Gov. C. H. Hardin. Ex-Gov. C. H. Hardin is being mentioned by his friends as a suitable man to occupy a place on the interstate commerce commission. The position would require a man of firmness and mature judgment, ability and the strictest integrity. If the place should be tendered Gov. Hardin and he would accept an appointment, it would insure one sound man in the board who would deal fairly with all classes and interests.—Ralls County Guide.

They Forget The Baby.

A company of friends recently called at the house of a citizen of Mid-Metown, Conn., to spend the evening. They were asked to lay their coats, cloaks, and shawls on a bed where a baby was sleeping. The little one was unusually good that evening, and neither stirred nor cried. When the guests had gone it was found to be dead. It had been smothered by the garments piled upon it.

She Won The Dress. LOUISIANA, Mo., February 5.—Mrs. Edna Suda, wife of City Collector W. F. Suda, to-day accomplished the feat of eating thirty quail in thirty consecutive days, and is still on the track. In connection with the daily quail menu, it may be said that the lady both dressed and cooked the birds herself. The consideration for this heretofore difficult undertaking was a rich silk dress.

Vice Versa. From the Lathrop Herald. We are in favor of submission because in favor of prohibition, submission is the first step towards prohibition. This is the reverse, partly, of the way the Mexico Ledger and Senator Vest put it.

Chronicle. From the St. Louis Republican. Hon. Casius M. Clay, of Kentucky, sounds the tocsin against the importation of Australian rabbits. Mr. Clay has grown chronic in his habit of sounding the tocsin, and it might as well be rabbits as anything else.

Prospecting for Coal. New London, Mo., February 5.—The Vandalia Coal Company has brought its tools here to begin prospecting for coal one mile from town.

FROM HONOLULU.

An Extract from an Interesting Letter Written by Wm. O. Lackland, Formerly of This City.

The following is extracted from a letter written recently by Wm. O. Lackland, of Honolulu, H. I., to his father, Judge N. Lackland, of Mexico, Mo.: "We only have two mails a month from the outside world, and time is reckoned here by the steamer days—meaning the arrival or departure of a mail steamer to or from San Francisco. Wednesday of this week the steamer 'Australia' arrived, bringing the U. S. mail; to-night the steamer 'Almenda' is due from Australia, en route for San Francisco. Every one here, of course, is very much interested in the Pacific Cable project—a scheme to connect by cable Australia and America, touching at the Fiji and Sandwich Islands, and look forward eagerly to its completion.

Another enterprise from which Hawaiians expect great benefit from, is the completion of the Panama canal, which, it is claimed, will make Honolulu a port of California for all the shipping of the Pacific Ocean. But the great and absorbing question is always the reciprocity treaty with the United States. Although anxiety on that subject is somewhat allayed by President Cleveland's recommendation in his message for the continuance of the treaty.

In November last King Kalakaua attained his fiftieth year, and the event was celebrated with great display. The jubilee continued through fourteen days, and many thousands of dollars were spent to commemorate the event. The Legislature voted \$15,000 for the celebration, but that was not a drop in the bucket. The first day was the Hoopu, or day of presents, when every one was expected to present to "His Majesty" a token in remembrance of the day. No one can tell the value of the presents he received. They were very numerous and varied from a sucking pig and cat with kittens to a thousand dollars in gold; one of the handsomest presents was a pair of elegant tusks, the largest I ever saw, polished like a mirror and gold mounted; they were valued at \$1,000. Then there was a day of feasting, a day of dancing, a day of field sports, such as racing and the like, and a day of aquatic sports, such as boat races, swimming, etc., and so on through the two weeks. The sugar mills are beginning now to grind, on the new crop, of course, and it is predicted that the yield of sugar for this year will be greater than ever before. I see by the papers that coal is being mined in considerable quantities in Mexico and Vandalia, which, I suppose, adds to the prosperity and importance of the country. I am getting to like it here very well now, although not well enough to wish to live here always. The climate is very nearly perfect, though a long residence here is apt to unfit one for a cold climate. Did you see W. R. Roberts' letter in the Ledger? He has gone to Hong Kong, China."

THE ELEPHANT. Submission and Prohibition in Relation to the Two Parties. PORCH BOUNCED. Col. E. C. More of Missouri Appointed Consul-General to Mexico.

WASHINGTON, D. C., Feb. 7.—Secretary Bayard has triumphed in his attempt to have Porch, Consul-General at Mexico, bounced. He was removed at the instigation of Mr. Bayard, because of his talking about the alleged escape of Sedgwick E. Carey More of Missouri, who has been a standing candidate for Congress in Mr. Head's district, was to-day appointed to succeed Porch. Mr. Bayard feels avenged and the purity of the Mexican court assured.

The fact is the committee appointed to investigate the report and see if anything improper had been engaged in by either the judge or prosecuting attorney while serving in their respective offices, was appointed at the request of these men themselves, in order that the public might be informed as to the true nature and effect of the report.

Your paper is extensively read in this part of the state, and the inferences to be drawn from the dispatch referred to are likely to do these men no little injury. GEO. M. GILL.

The Appetite

May be increased, the Digestive organs

strengthened, and the bowels regulated, by taking Ayer's Pills. These Pills are purely vegetable in their composition. They contain neither calomel nor any other dangerous drug, and may be taken with perfect safety by persons of all ages.

I was a great sufferer from Dyspepsia and Constipation. I had no appetite, became greatly debilitated, and was constantly afflicted with Headache and Dizziness. I consulted our family doctor, who prescribed for me, at various times, without affording more than temporary relief. I finally commenced taking Ayer's Pills. In a short time my digestion and appetite

IMPROVED. My bowels were regulated, and by the time I finished two boxes of these Pills my tendency to headaches had disappeared, and I became strong and well.—Darius M. Logan, Wilmington, Del.

I was troubled, for over a year, with Loss of Appetite, and General Debility. I commenced taking Ayer's Pills, and, before finishing half a box of this medicine, my appetite and strength were restored.—C. O. Clark, Danbury, Conn.

Ayer's Pills are the best medicine known to me for regulating the bowels and for all diseases caused by a disordered Stomach and Liver. I suffered for over three years with Headache, Indigestion, and Constipation. I had no appetite, and was weak and nervous most of the time.

BY USING three boxes of Ayer's Pills, and, at the same time, dieting myself, I was completely cured. My digestive organs are now in good order, and I am in perfect health.—Philip Lockwood, Topeka, Kans.
